

SHOWS AND STUFF: Dates for your 2005 show diary: WE WILL BE AT.....

13th Feb: **FANTASY PARTIZAN, Newark (Kelham Hall).**
 27th Feb: **CAVALIER, Tunbridge Wells**
 19th/20th March: **TRIPLES, Sheffield**
 23rd April: **SALUTE, Olympia, London**
 Dates for later shows in next update; please note that BROADSWORD (Walthamstow) 2005 has been CANCELLED.

RULES NEWS:

DIRTSIDE II is now out of print in paper form, but is now available as a FREE PDF DOWNLOAD from our website! FT FLEET BOOK 2 is also currently OOP, and may also be made available in pdf form soon. Watch out for news of new rules products later in the year!

DELETED ITEMS:

EUREKA MINIATURES have decided to delete a few of their lines which we have been producing under licence from them, so we have had to drop these also: the 28mm SFE, AWG, REB, ANX and SC-101 to 106 ranges are now no longer available. I guess the moral is that if you see something you want, buy it there and then - there's no guarantee it'll be available forever!

DLD PRODUCTIONS RESIN KITS:

We now have limited stocks of the superb DLD resin kits from the USA, including 25/28mm SF vehicles, 15mm SF vehicles and FT-scale space installations (including the magnificent Orbital Repair Dock). For details of prices and items currently in stock, please check our website, give us a call or see us at one of the shows.

NEW STAR MATS for FULL THRUST!

We now have stocks of black felt STAR MATS again, very similar to the old Geo-Hex ones we used to sell; available as 6' x 4' or huge 6' x 8' versions, using quality heavyweight felt hand-finished with multicoloured starfields and hand-sprayed special effects (nebulae, spiral galaxies etc). These are US-made imports, and only PLAIN (ie: non-hexed) mats are available at present, but they are perfect for your FULL THRUST games or any other good rules set that doesn't rely on hex-grids.

STAR MAT 6x4: £30.00 STAR MAT 6x8: £58.00

OTHER RECENT RELEASES from previous updates:

UNDER LICENCE FROM EUREKA MINIATURES:

Multi-part "SWAT" team figures in 28mm

Each figure consists of three parts - legs, torso and head (plus a slot-base) which can be "mixed-and-matched" to produce a huge range of different figure variants and pose variations. All figures are in flak vests and carry present-day weaponry - great for modern urban or SF games.

There are two ways of buying the SWAT figures - an assortment of parts to our choice, which saves you money, or by choosing individual parts.

SWAT HEADS:

- H1 Baseball cap
- H2 Baseball cap, backwards
- H3 Baseball cap + goggles
- H4 Balaclava
- H5 Balaclava + gas mask
- H6 Kevlar helmet ("Fritz" style)
- H7 Helmet + balaclava
- H8 Helmet + goggles
- H9 Helmet + goggles (raised)
- H10 Helmet with cover
- H11 Helmet with cover + goggles

SWAT BODIES:

- B1 Firing HK MP5
- B2 HK MP5 at ready
- B3 With sledgehammer
- B4 Shotgun at ready
- B5 Firing pistol

SWAT LEGS:

- LS Standing legs
- LA Advancing legs (3 random variants)
- LK Kneeling legs

ORDERING THE SWAT FIGURES:

If you want to order a specific combination of parts to make a particular figure, each full set of 1 head, 1 body and 1 leg part (plus a base) costs £1.25. To order, specify the parts like this example: "SWAT H5-B2-LA" - this will get you a figure with a balaclava and gasmask, carrying an HK MP5 and in an advancing pose, and will cost you £1.25.

If you'd rather let us choose a mix of parts for you, then the price goes down to £1.00 per figure - these are sold in packs of THREE figures at £3.00 per pack, and you can still choose the HEAD type - but we then put in bodies and legs at random.

Order as "SWAT PACK" plus the head type you want; for example,

"SWAT PACK-H8" will get you three randomly-armed figures in helmets with goggles for £3.00.

"HAMMER'S SLAMMERS" FIGURES - APPROVED BY DAVID DRAKE!

David Drake's "Hammer's Slammers" stories have been firm favourites of SF wargamers for years, but until now no-one has produced any miniatures that depict the toughest Mercenary unit in human space as the author intended them to look.

Now, with the very kind permission of author and creator DAVID DRAKE (and thanks to John Treadaway for his amazing graphics work in visualising the Slammers and their equipment), we are very proud to present the DEFINITIVE miniatures of the Slammers in 25mm scale:
